RESOURCING LARGE-SCALE LITIGATION IS CHALLENGING

Large scale litigation or remediation programs are:

- Resource intensive. While you may operate with a lean team, you must always provide clients with full service - and that requires presenting the right team.
- Competitive. If your firm isn't geared to manage class actions and large-scale project based litigation, you risk being overlooked, even by your regular clients; and
- Expensive. Sustaining a specialised senior resource beyond an individual litigation can create a major financial burden.

WE OFFER PROJECT-BASED "NO STRINGS ATTACHED" SPECIALIST LITIGATION SERVICES

We provide law firms with specialist litigation services for complex and large scale litigation and remediation programs. Our unique resourcing model enables us to help you:

- Fill your resourcing gaps by joining your team on a project basis;
- Deliver a full service on a profitable basis but without the financial burden. We'll help you to maintain and strengthen your 'trusted adviser' status with your clients on a profitable basis but without any strings attached or long term expectations.

Provide deep expertise that builds your competitive advantage. We offer nearly 15 years' experience and expertise honed at

top tier law firms in acting for multi-national corporations in "bet the company" class actions and remediation programs relating to financial institutions, pharmaceutical products, the automotive industry, allegedly defective products, toxic waste and agribusiness.

TESTIMONIALS

"Yudi was a great support to me and the department. His litigation and class action experience went a long way to assisting us in understanding and developing strategies and tactics along the way. His calm demeanour and reasoned approach to all things meant we were able to ensure all appropriate questions were asked and options covered."

— Giovanna Tivisini, Partner, Hive Legal and former General Counsel, Department of Primary Industry (Vic)

"Yudi integrated quickly and smoothly into Enforcement's operations adding value to what we do. I threw a number of matters at Yudi and he grasped the issues quickly along with providing prompt work output. One of the matters was at the higher end of the complexity scale and Yudi provided sound analysis of the issues and regulatory options available. Overall, Yudi was a pleasure to work with and we enjoyed his time with us."

— Brendan Caridi, Senior Manager, Enforcement, ASIC

"Yudi's assistance on the project was first class - he managed a large team of lawyers through difficult work, and provided much needed senior support to the leadership team. Yudi brings years of experience into the workplace. His calm demeanour means that he fits in seamlessly to new team."

— Ross McInnes, Partner, Clayton Utz and Acting Head of Legal Stream at CBA
