LARGE SCALE LITIGATION BRINGS ORGANISATIONAL CHALLENGES

We appreciate that large scale litigation and claims management can be challenging because:

- Your organisation and team are not adequately resourced for litigation of this size and complexity;
- Outsourcing control can be extremely costly and neglect your organisation's commercial objectives; and
- Your organisation's reputation and bottom line are at risk - you need to navigate wisely.

WE OFFER COST-EFFECTIVE LITIGATION MANAGEMENT SOLUTIONS

We provide litigation management solutions to ASX Top 200 companies, government organisations and law firms, focusing on class actions, large-scale litigations and remediation programs.

We can join your team as 'in-house' litigation counsel, enabling us to understand your commercial objectives and help you manage your litigation - but only as and when you need it. This means that we can:

- Be commercially focused - tailoring our offering to meet your immediate commercial objectives and long-term goals;
- Free up your resources - because we provide efficiencies in managing your litigation, the rest of your team can continue to focus on core business; and
- Provide cost-effective expert advice - by assisting you only when the life cycle of the litigation demands and without charging you for the usual law firm overheads.

WE HAVE PROVEN SUCCESS

We offer nearly 15 years' experience in acting for multi-national corporations in "bet the company" class actions and remediation programs relating to financial institutions, pharmaceutical products, the automotive industry, allegedly defective products, toxic waste and agribusiness.

We have experience as embedded team members within the CBA, Victorian Government and ASIC.

TESTIMONIALS

"Yudi was a great support to me and the department. His litigation and class action experience went a long way to assisting us in understanding and developing strategies and tactics along the way. His calm demeanour and reasoned approach to all things meant we were able to ensure all appropriate questions were asked and options covered."

— Giovanna Tivisini, Partner, Hive Legal and former General Counsel, Department of Primary Industry (Vic)

"Yudi integrated quickly and smoothly into Enforcement's operations adding value to what we do. I threw a number of matters at Yudi and he grasped the issues quickly along with providing prompt work output. One of the matters was at the higher end of the complexity scale and Yudi provided sound analysis of the issues and regulatory options available. Overall, Yudi was a pleasure to work with and we enjoyed his time with us."

— Brendan Caridi, Senior Manager, Enforcement, ASIC

"Yudi's assistance on the project was first class - he managed a large team of lawyers through difficult work, and provided much needed senior support to the leadership team. Yudi brings years of experience into the workplace. His calm demeanour means that he fits in seamlessly to new team."

— Ross McInnes, Partner, Clayton Utz and Acting Head of Legal Stream at CBA
